

AXEL RENÉ ROMERO ESQUIVEL

WEB & SOFTWARE DEVELOPER

ALIAS
ARRE[CODE]

I'm 21 years old, I live Corrientes, Argentina.

I love acquiring knowledge and utilize it. Programming is the principal activity of my everyday.

I learned all kind of topics related to technology, developing and designing for almost 6 years. I started working professionally in the area 3 years ago, and going.

I'm interested in all the areas, but more specialized in web and software development.

WORK EXPERIENCE

2021
ACTUAL

Fullstack Web Developer and Marketing Manager (ACTUAL)

at Quinsa

In charge of the management of an e-commerce and marketing strategies to carry out a company dedicated to the wholesale of clothing in Argentina. Using technologies such as: HTML, CSS, Javascript, Wordpress, Woocommerce, Tienda Nube, Facebook Business.

2020
2021

Fullstack Web Developer and Support

at Epimedia Estudio

Epimedia Estudio has allowed me to acquire strong knowledge in the practice of updating, maintenance, adding functionalities and complete development of web pages. I mostly used: PHP, Wordpress, Javascript, CSS, Bootstrap, Flask.

2019
2020

Junior Python Data Scientist and Software Developer

Project with an financial advisor (Germán Bianotti)

Developer of a software oriented to historical analysis of financial assets and crypto

assets, applying data science concepts with Python, Pandas, Numpy and PyQt5. It was my first big project/work and a great experience, I learned a lot from this.

2017
2019

Graphic Designer

Freelancing as @arredits

Advanced knowledge of Photoshop CS6 and video editing in Sony Vegas Pro 12. Perform multiple branding and advertising jobs for small venues and events. I put my designer profile @arredits on Instagram, where I share my own designs.

EDUCATION

2019
ACTUAL

Degree in Systems (on course)

at UNNE FACENA

I am currently studying this career. I'm in the second year/level.

2018
2018

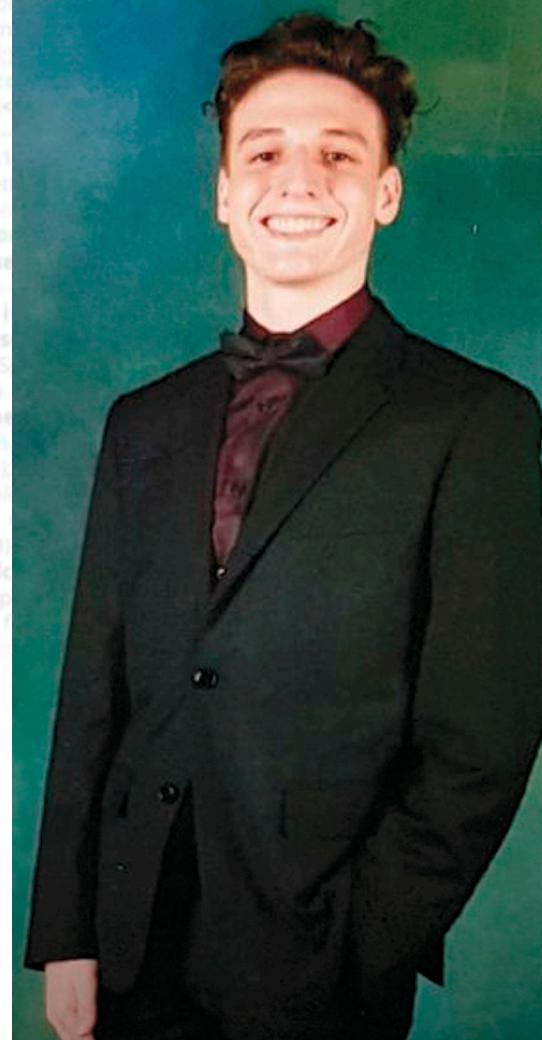

Systems Engineering (incomplete)

at UTN FRRE

I have one year of experience in Systems Engineering, where mathematics abounded. I discovered a great facility for logic mathematics and a fascination for physics, but also my path was clearer for me: I wanted to be a great programmer.
